

HADE CODE TAPER ...customizes your sealing!

The HADE Code Taper imprints, codes and identifies your cartons while sealing. The packaging gets a face.

Ideal for printings of contents, best-before date or advertising.

The rubber printing types can be placed within in a second into the guiding ribs of the printing cylinder and also been removed or changed easily.

All kinds of gummed tape can be imprinted up to a width of 80 mm. The printing length is 250 mm max, the printing width up to 50 mm.

Neat printings by a special colour-transferring cylinder. Available colours: black, blue, red and green.

The HADE Code Taper can surely be mounted afterwards on all HADE GUMMED TAPE DISPENSERS.
